

FOR IMMEDIATE RELEASE

Harris Computer Systems Acquires ACE Software

OTTAWA, ONTARIO, April 3, 2006 – Harris Computer Systems (“Harris”), a leading provider of software solutions for local governments, utilities and school districts is pleased to announce the purchase of all the assets related to the Student Information System (SIS) and Financial Management software of ACE Software, LLC and ACE Charter Services (“ACE”). ACE is a leading provider of SIS and financial management applications to K-12 school districts and educational institutions within the State of Ohio and surrounding states.

Harris President and CEO Jeff Bender stated, “We are very pleased with the growth opportunities in the K-12 SIS vertical. ACE provides Harris with a solid customer base, great employee group, and a product suite that both compliments and expands our existing portfolio. Furthermore, Harris is very excited about expanding the ACE Charter Services business.”

ACE founder and President, Mike Uhrin stated, “Harris is a firm that clearly understands our business and has the resources to grow the business in Ohio and other states. After 29 years serving our customers with what I feel was the best software available, I am retiring to spend time with family and travel. Harris’ commitment to continue to support the product line with all present employees provides me with the assurance that ACE will continue to deliver superior value to customers.”

Harris is committed to the continued support and service of the ACE flagship products *ADM-2000 Student Information* and *Financial*. Equally importantly, Harris will continue to support all ACE add-on products for ad-hoc query and reporting, web based data access, textbook management, and warehouse management. “ACE solidifies our product footprint in both the student information and educational financial management segment and provides breadth in scheduling, grade management, and textbook management. We are very excited about the opportunities ACE represents to our current School District customer base through add-on product introduction and leveraging the domain expertise to enhance our current offerings,” explained Harris Vice President responsible for K-12 solutions within Harris, Bryce Cooper.

Furthermore, Harris is fully committed to continue to support and grow ACE Charter Services. Cooper explained, “The Charter Services operation provides significant potential in a segment of the market that continues to demonstrate sustained growth. ACE provides us with an excellent operational platform that we can marry with our compliant products for other jurisdictions to immediately expand Charter Services.”

ACE will continue operations from their existing offices in Columbus, Ohio, and will be integrated with the Tenex business unit of Harris, focusing on continuing its customer service excellence for School Districts and Charter Schools.

About Harris:

Harris is a leading provider of Customer Information Systems (CIS), Student Information Systems (SIS), billing and financial management software solutions. Since 1976, Harris has focused on providing feature-rich and robust turnkey solutions to utilities and all levels of local government throughout North America. Harris' focus is on creating long-term relationships with our customers and ensuring that we meet the changing needs of our customers over time. For further information on Harris Computer Systems, please visit our website at <http://www.harriscomputer.com>, or call 888-847-7747.

About ACE:

ADM-2000 provides a graphical user interface, a relational database and a wide array of system administration benefits for Financial and Student administration to school districts throughout the United States. ADM-2000 is designed to extend the "open system" concept because it allows for substantial customization by the school district. ACE software is a great full-featured package from a company with more than two decades in the school software business. School districts from 150 to 64,000 student use some portion of ADM2000 today.
