Principalm Requirements:

Handheld Requirements

Operating System

- Palm OS 4.0 or later, but OS 5 is recommended for Optimal speed, especially with larger schools or smaller memory Cards

Hardware

- (required) Any Palm OS PDA running Palm OS 4.0 or later that has a memory card slot.
- (Required) A memory Card to use with Principalm. We recommend, if you PDA supports them the SD Card Format, in a larger size such as 256MB. Any type of memory card is supported, including Sony Memory Sticks.

Size of Memory Card

Photo Format	32MB	64MB	128MB	256MB	512MB	1GB
Palm OS 4	2800*	5,600*	11,000	22,000	44,000	88,000
Palm OS 5	700	1,400	2,800	5600	11,000	22,000

- (Required) A memory card reader that is compatible with your memory card and computer. Principalm Connect will use this to put data on your card.
- (Recommended) A Color PDA. This is required for pictures.
- (Optional) PDA phone device. Enables direct dialing of contact phone numbers.

Desktop Requirements

Operating System (any of)

- Microsoft Windows 98, Me, NT, 2000, or XP
- Mac OS 9.2.2 or later
- Mac OS X 10.1 or later

Server Software Requirements

ADM2000 Student Information System with Principalm download Software, only purchased by the district once, not by building.

Software Pricing

Principalm Connect	>501Students \$1045.00 per building
	<500 Students \$ 495.00 per building
	Annual Maintenance \$210.00 per building
ADM2000 Server	\$2500.00 per district per year
